Software Simatic S7 Basic 6ES7822-0AA00-0YM0 With editor for the programming language KOP (ladder diagram), With editor for the programming language FUP (function plan), With editor for the programming language ST (structured text), Suitable for the Windows 7 operating system, Suitable for the Windows 8 operating system, Suitable for operating system, other, block library not available, integrated diagnostic function, integrated configuration function, integrated evaluation function, integrated project planning function, integrated data acquisition function, integrated communication function, integrated technological function, integrated commissioning function, integrated simulation function, integrated motion function, integrated analysis function, integrated positioning function, integrated maintenance function, IEC 1131-3 (DIN EN 61131-3)-compliant, SIL according to IEC 61508 without, SIMATIC S7, STEP 7 Basic, Software Update Service Compact If multiple orders are placed on one item, these deliveries will be combined. Minimum order quantity: 3 pieces within the framework of this contract you will receive all current software versions for one year. the contract is automatically extended by 1 year if it is not canceled 3 months before it expires. Delivery and service period: 1 year from the invoice date. Prerequisite for completion: current version of the software With SIMATIC STEP 7 (TIA Portal), the user configures, programs, tests and diagnoses basic, advanced and distributed controllers of all generations, whether PLC or PC-based, including software controller. Thanks to its integration into the engineering framework of the TIA Portal, SIMATIC STEP 7 offers advantages such as direct online diagnostics, easy addition of technology objects or the library concept for time-saving, efficient work and reuse of objects. STEP 7 in the TIA Portal helps you to solve your engineering tasks intuitively and efficiently. The integration into the TIA Portal convinces in every work and programming step through clarity, intelligent user guidance and convenient processes. Functions such as drag & drop, copy & paste or autocomplete make work significantly faster and easier. Whether it is a single user, a manageable team or an international company, there is a licensing variant available for every application, with which you can use your SIMATIC software cost-effectively according to your requirements. In addition, you can use the Software Update Service (SUS) to keep your software up-to-date easily and inexpensively, and you will be supplied with the latest software as soon as it is released for delivery.
