Pushbutton 22mm, round, red 3SU1001-0AA20-0AA0 Button color red, number of command points 1, lens design round, hole diameter 22.3mm, opening width 29.5mm, opening height 11mm, other button design, suitable for Lighting, switching function latching, with front ring, material of the front ring plastic, color of front ring black, degree of protection (IP), front IP67/IP69K, NEMA degree of protection, front other, illuminated pushbutton, 22 mm, round, plastic, red, pushbutton, flat, latching , SIRIUS ACT pushbutton release Illuminated pushbutton for switching and controlling electrical loads. Under the SIRIUS ACT brand name, Siemens offers a unique portfolio of commanding and signaling devices with global product approvals in four modern design series made of robust real metal and high-quality plastic. The innovative snap-on concept simplifies the Assembly so far that only one hand and no special tools are required. Groove-free holes are sufficient as mounting holes, as 100% anti-twist protection is already integrated. Thanks to the consistently high degree of protection, the robust devices are suitable for industrial use and for outdoor use. Even cleaning with a high-pressure jet is possible. Neither dust, oil nor aggressive alkalis can disrupt reliable operation. In addition to the standard wiring, the devices can also be connected to the controller via PROFINET, AS-Interface or IO-Link. This reduces your wiring effort, minimizes sources of error and gains more flexibility. The graphic online configurator provides convenient support when selecting and ordering individual devices, housings and labels. Extensive documentation (e.g. manual, 3D data, connection diagram) is available. Available versions: several colours, illuminated/non-illuminated, with/without labeling, latching/momentary actuation, various push button and front ring heights. Note: individual device, holder and modules please order separately. SIRIUS ACT - Performance in Action for commands and reports. Simply assembled, simply strong, simply perfect.
