Universal touch dimmer UP 230VAC 0-500VA ETD U2 composition of basic element, push button operation, dimming leading edge, dimming trailing edge, load type universal and LED retrofit, extension input, light value memory, can be used with button, can be used with motion detector, can be used with presence detector, can be used with timer/timer, Type of installation flush-mounted, type of attachment other, material plastic, halogen-free, color gray, RAL number (similar) 7035, transparent, rated voltage 230 ... 230V, frequency 50 ... 50Hz, control voltage 230 ... 230V, rated power 0 ... 500VA, connection type screw terminal, core cross-section 0.5 ... 2.5mm², device width 43mm, device height 43mm, device depth 18.5mm, With the electronic universal touch dimmer ETD U2 (UP variant) a wide variety of light sources (LED energy-saving light bulbs, NV Dimming halogen lamps with Tronic or wound transformers, HV halogen lamps). In addition to automatic detection for wound transformers (dimming type auto), the dimming type can also be set manually to leading or trailing edge (possibly necessary for lamps with electronic ballasts). A special ESL dimming mode also creates an ignition and warm-up phase for compact fluorescent lamps (energy-saving lamps). Due to the compact housing dimensions, the ETD U2 can be installed directly in the installation sockets behind a button of any switch range, and is therefore equally suitable for new installations as well as a maintenance-free replacement for existing (defective) rotary or touch dimmers. Due to the integrated base load, it is suitable for operation on a mains field circuit breaker. Also available as a functionally identical REB variant ETD 2E, dimensions: 43x43x18.5mm, 230V AC, 0-500W
