Radio remote control KNX, 2 buttons, 2 channels TU402 wireless, height 83mm, width 46.5mm, depth 15.8mm, unidirectional, bidirectional, radio remote control, KNX, 2 buttons, 2 channels. Radio transmitter for switching loads in connection with KNX-capable bus systems via KNX radio. The device converts the switching information into unidirectional commands. Functions: switching, dimming, blinds, selection of the operating mode for the heating function, time, scene recall. The device has a key lock function to prevent accidental function operation. A multi-color LED indicates transmit configuration and battery status. The individual buttons can be labeled and the remote control can be used as a key fob thanks to the integrated eyelet.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
