Bus coupler 3 external sensor 200900 bus system KNX, other bus systems without, flush-mounted installation, type of fastening claw/screw fastening, use of KNX bus coupler 3 with external sensor Features: The bus coupler 3 establishes the connection between the KNX system and a KNX application module. The combination of the bus coupler 3 and an application module results in a functional unit. In the ETS project, this unit is configured in the form of the application program of the application module. A remote temperature sensor can also be connected to bus coupler 3 with an external sensor. A room temperature controller can thus record the temperature at an additional measuring point. Notes: The remote sensor only works in combination with a push button sensor 3 Plus.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
