RCCB B 80/4 500MA 4TE - Residual current breaker 4-p 5SV3747-4

Siemens
5SV3747-4
4001869549132 EAN/GTIN

1095,85 USD excl. VAT**
plus **shipping**

15-16 days* (USA)

RCCB type B, 500mA , 80A 5SV3747-4 number of poles 4, rated voltage 400V, rated current 80A, rated residual current 500mA, mounting type DIN rail, residual current type B, short-time delayed type, short-circuit strength (Icw) 10kA, surge current strength 3kA, frequency 50 Hz, Additional equipment possible, with locking device, degree of protection (IP) IP20, width in modular widths 4, installation depth 70mm, ambient temperature during operation -25 ... 45°C, connectable conductor cross-section stranded 0.75 ... 35mm², connectable conductor cross-section solid 0.75 ... 35mm², FI circuit breaker, 4-pole, type B, short-time delayed, In: 80 A, 500 mA, Un AC: 400 V The FI circuit breaker is the residual current protective device for contact protection The patented residual current protective devices from Siemens are an important part of the SENTRON protective components for the electrical installation, because they prevent life-threatening electrical accidents by safely switching off dangerous residual currents against Earth. Electrically ignited fires can be prevented as soon as they start. Whether by directly touching live parts during operation or by indirectly touching equipment - the protection is primarily achieved by switching off quickly. The main features of the Siemens 5SV RCCBs are: 1. Comprehensive protection for people and property against electric shock. 2. Whether sinusoidal AC residual currents or smooth DC residual currents - Siemens offers the right type and special versions for all requirements. 3. Reliable safety during installation thanks to the grip and touch protection included as standard. 4. Tool-free removal from the top-hat rail or from the busbar assembly through convenient slide-hand operation. 5. Data matrix code on the front of the device provides all information about the residual current circuit breaker quickly and easily. 6. Be protected according to standards: The residual current circuit breakers comply with the provisions of DIN VDE. 7. Optimum technology for your safety - only from Siemens. For the safe, efficient electrical infrastructure in buildings and industry, Siemens offers a comprehensive portfolio of protective switching, measuring and monitoring devices, distribution systems, switches and socket outlets.

YOUR ADVANTAGES

WORLDWIDE TRADE
Corporate video eibmarkt®

COMPLAINTS HANDLING
Obliging and 100% safely

SHORT DELIVERY TIME
Warehousing

99% CUSTOMER SATISFACTION
> 500,000 customers worldwide

25 YEARS OF EXPERIENCE
In worldwide mail order

REFUND
Within 14 days
