Distance measuring device 70151 KNX SO250 The ultrasonic probe KNX SO250 is used for distance measurement and for recording the fill quantity of liquids in tanks. In addition to the classic areas of application such as rainwater storage tanks or heating oil tanks, z. B. fish pond or fountain or the parking distance of trucks can be monitored. The distance / level can be read directly on the display of the output device. The tank geometry and two relay switching outputs can be set using the integrated keypad. When the relay is switched, an acoustic alarm signal can also be emitted. All bus functions of the KNX SO250 can be parameterized separately using the KNX software ETS. 5 freely selectable limit values and switching outputs are available here. Technical data evaluation device: Operating voltage: 230 V AC / 50 Hz Data output: EIB / KNX +/- bus plug-in terminal Additional outputs: 2 relays BCU type: own microcontroller PEI type: 0 Number of group addresses: max. 254 Number of assignments: max. 255 number of communication objects: 57 Type of installation: DIN rail mounting device Dimensions: approx. 123 x 89 x 61 mm (W x H x D), 7 TE Ambient temperature: -5 ° C to +45 ° C Air-ultrasonic probe: Measuring range: 12 cm up to 250 cm Dimensions: total diameter approx. 60 mm, total head height approx. 45 mm, thread: 1 1/2 inch length of connection cable: 10 m (coaxial cable RG 58) Ambient temperature: +0 ° C to +40 ° C Media resistance: water , Heating oil Manufacturer: Elsner Elektronik GmbH Item No .: 70151KNXSO250

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
