Digital input terminal 8-channel, 24VDC KL1408 supply voltage at DC 24 ... 24V, voltage type of the supply voltage DC, number of digital inputs 8, number of digital outputs 0, input current with signal 1 3mA, permissible voltage at the input -3 ... 30V, type of input voltage DC, type of digital output without, number of HW interfaces Industrial Ethernet 0, number of interfaces PROFINET 0, number of HW interfaces serial RS-232 0, number of HW interfaces serial RS-422 0, number of HW interfaces serial RS-485 0, number of HW interfaces serial TTY 0, number of HW interfaces parallel 0, number of HW interfaces wireless 0, number of HW interfaces USB 0, number of HW interfaces other 1 , Supports protocol for other bus systems, system component, degree of protection (IP) IP20, design of the electrical connection spring-loaded connection, delay time for signal change 3 ... 3ms, fieldbus connection via separate bus coupler possible, DIN rail mounting possible, explosion protection category for gas without, explosion protection category for dust without, width 12mm, height 100mm, depth 68mm, The digital input terminals record the binary control signals from the process level and transport them with galvanic isolation to the higher-level automation device. The Bus Terminals each contain eight channels whose signal status is indicated by LEDs. They are particularly suitable for space-saving use in the control cabinet. By using the 1-wire connection technology, a multi-channel sensor system can be connected in the smallest space with little wiring effort. The power contacts are interconnected

YOUR ADVANTAGES

WORLDWIDE TRADE
Corporate video eibmarkt®

99% CUSTOMER SATISFACTION
> 500,000 customers worldwide

DHL TRACK & TRACE
Shipment tracking

COMPLAINTS HANDLING
Obliging and 100% safely

25 YEARS OF EXPERIENCE
In worldwide mail order
