Push button sensor 4f.brz 75164144 bus system KNX, other bus systems without, type of installation flush-mounted, with theft/dismantling protection, number of actuation points 8, number of buttons 8, with LED display, material other, material quality other, surface lacquered, finish of the surface matt, Color bronze, RAL number (similar) 3012, degree of protection (IP) IP20, push button sensor 4-fold Arsys light bronze, lacquered. Push-button sensor 4-fold with dismantling protection. Concealed installation, surface/design range. The 4-fold push-button sensor is an instabus user module for plugging onto the flush-mounted bus coupler. The push button sensor is mechanically locked to the bus coupler by the dismantling protection. The data exchange between the push button sensor and the bus coupler takes place via the user interface (AST). Each keystroke on the pushbutton sensor causes the bus coupler to generate a telegram and send it to the bus. The telegram format depends on the parameterized application. Depending on the selected application, switch push button dim blind or value telegrams can be sent.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
