Alpha630DIN fuse load disconnect. 8GK4751-4KK33 Height 600mm, width 750mm, type of cover with cutout, with cover, ALPHA 630 DIN, installation kit for 14 fuse switch disconnectors 3NJ4 size. 00, H=600 W=750 The ALPHA installation distributor? a complete system of wall and floor-standing distributors for installing devices up to 1250 A. ALPHA - the system idea counts. The ALPHA distribution systems are tested according to IEC 61439 and are based on a common platform structure with extensive versions up to 1250 A. Due to the platform structure and modular design, the device-specific installation kits can be integrated into various distribution variants. This makes planning and assembly easier. The equipment is individual and project-specific. The SIMARIS configuration configuration software supports everything from planning to documentation of the energy distributors and ALPHA installation distributors. The Siemens ALPHA installation distributors are characterized above all by: 1. For simple and quick installation, the installation kits consist of device-specific support plates and field covers. 2. Quick assembly kits are pre-assembled and already contain the longitudinal bars. Thanks to the quick locking technology, these can be snapped into the empty cabinets of the appropriate height to save time. Siemens offers a comprehensive portfolio of protection, switching, measuring and monitoring devices, installation distributors, switches and sockets for safe, efficient electrical infrastructure in buildings and industry.
