Load-break switch OT125F3 design as main switch, design as maintenance/repair switch, max. rated operational voltage U_e at AC 750V, rated operational voltage 750 ... 750V, rated uninterrupted current I_u 125A, rated uninterrupted current at AC-23, 400 V 90A, rated uninterrupted current at AC-21, 400 V 125A, rated operational power at AC-3, 400 V 45kW, rated short-time withstand current I_{cw} 2.5kA, rated operational power at AC-23, 400 V 45kW, switching capacity at 400 V 45kW, number of poles 3, number of auxiliary contacts as NC contacts 0, number of auxiliary contacts as NO contacts 0, Number of auxiliary contacts as changeover contact 0, Device design Built-in device, Suitable for distributor installation, Color of the actuating element black, Design of the actuating element short turning handle, Connection type main circuit screw connection, Degree of protection (IP), on the front IP20, Degree of protection (NEMA) 1, The manually operated switch disconnectors of the OT series are unique in their variety and flexibility. The OT series switches currents from 16 A to 4000 A at voltages of up to 1000 V AC. Despite their high performance, the switches are very easy to use and take up little space. The freely selectable installation position enables a high level of flexibility and efficiency in planning. In addition, the OT switches can be used as main switches in the main or sub-distribution. Of course, the OT series also has IEC and UL approvals, which make this series even more attractive. ABB also offers you a wide range of accessories for these switches, e.g. B. extension shafts, handles, auxiliary switches and terminal covers. This means that the OT switch-disconnectors can also be used in the most demanding applications.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
