Heat-shrink tubing thick 33/8 mm, black, w. HDT-AN 33/8 type heat shrink, thick-walled design, shrink ratio 4:1, inner diameter before shrinking 33mm, inner diameter after shrinking 8mm, wall thickness after shrinking 4mm, length 1m, operating temperature 130 ... 130°C, color black, material polyolefins (PO-X), halogen-free, with inner adhesive, The 3M HDT AN heat-shrinkable tubing is a thick-walled, halogen-free heat-shrinkable tubing made of modified, radiation-crosslinked polyolefin. It is suitable for use on all plastic and ground cables for indoor as well as outdoor and underground installation. It serves to insulate and seal connections of all kinds, in particular as an outer hose for control line fittings. It has an adhesive coating on the inner wall for better sealing. The extremely age-resistant heat-shrink tubing is UV-resistant and resistant to many chemical influences. Its shrink ratio is four to one and it can be used in a temperature range from 55 °C to +130 °C. It is not self-extinguishing.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
