Level monitor ENW-E12 24VAC 2W Design of the electrical connection Screw connection, Rated control supply voltage  $U_s$  at AC 50 Hz 24 ... 24V, Type of voltage for actuation AC, Number of electrode inputs 3, Min. adjustable ON delay time 0s, Max. permissible ON delay time 0s, Min. adjustable OFF delay time 0s, max. permissible off-delay time 0s, response sensitivity adjustable, number of contacts as opener 0, number of contacts as closer 0, number of contacts as changer 2, physical measuring principle conductive, width 22.5mm, height 75mm, depth 100mm, the level monitor is used for level or leakage monitoring of all conductive non-flammable media. The response point can be set using a proportional potentiometer. As a guard, the device works with an electrode (EO) and the ground connection (EM), e.g. B. for messages of minimum or maximum, as overflow or dry-running protection for submersible pumps. An additional electrode (EU) is recommended if the surface of the level is unstable. As a two-point controller, the device controls pumps or valves for the automatic filling or emptying of containers with the electrodes EO, EU and ground connection EM. A container wall that is conductive to the medium can also be used as a ground connection. When connecting 2 electrodes, the connections B2 and B3 must be bridged! Variants: 230 V AC or 24 V AC

### YOUR ADVANTAGES

**WORLDWIDE TRADE**  
Corporate video eibmarkt®

**99% CUSTOMER SATISFACTION**  
> 500,000 customers worldwide

**DHL TRACK & TRACE**  
Shipment tracking

**COMPLAINTS HANDLING**  
Obliging and 100% safely

**25 YEARS OF EXPERIENCE**  
In worldwide mail order

**ORDER LIVE CHAT**  
With order history

**SHORT DELIVERY TIME**  
Warehousing

**REFUND**  
Within 14 days

**DATA PROTECTION**  
Guarantee

\* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

\*\* Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

\*\*\* Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
