Busbar system 5mm 8US1921-2AD00 Type of accessories other, BusbarN system, accessories Bar center distance 40, 60mm Connection terminal Rail thickness: 5mm 16-70 mm2 Busbar system 8US for the construction of protective devices such as fuse switch disconnectors and circuit breakers - safe, space-saving, clear. The use of the Siemens 8US busbar systems offers a wide range of options for installing rail-adaptable connection switching and installation devices. The space-saving modular design and quick-assembly contacting ensure economical electrical equipment in today's installation distribution board construction. The assembly takes place on longitudinal bars, the rail spacing is 60 mm. The Siemens 8US busbar systems are characterized above all by: 1. Mechanical fastening and electrical contacting in one operation. 2. Worldwide approval and therefore worldwide possible uses in mechanical and plant engineering. 3. Easy replacement of individual devices or entire combinations. 4. Assembly time savings and cost reduction through fully assembled consumer branches. 5. High operational safety thanks to finger-safe covers for the adapters and device carriers. 6. Wide range of usable busbars for easy adaptation to current strengths of up to 1,600 A. Siemens offers a comprehensive portfolio of protection, switching, measuring and monitoring devices, installation distributors as well as switches and sockets for the safe, efficient electrical infrastructure in buildings and industry.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).
** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.
*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
