Nylon cable tie 4.8x366 mm light blue PLT4S-C86 Tape width 4.8mm, tape length 366mm, tape thickness 1.4mm, max. bundle diameter 102mm, min. holding force 222N, operating temperature -60 ... 85°C, mounting temperature -20 .. 85°C, design with internal teeth, tape fastener plastic tongue/nose, material plastic with metal pigments, material quality polyamide (PA), surface untreated, halogen-free, color other, labeling area without, type of fastening without, flammability class of the insulating material according to UL 94 other, Pan-Ty Metal detectable cable ties and sockets are designed to help the food, beverage, chemical and pharmaceutical industries meet manufacturing safety standards. The metal-impregnated material enables identification by metal detectors and X-ray machines. Our products take a big step towards compliance with the EU HACCP* directive and the US Food and Drug Administration (FDA) standards. Pan-Ty Metal Detectable Cable Ties, Tie Bases and Installation Tools offer a total solution to reduce product contamination or loss. The one-piece design allows for the lowest insertion pressure for easy and reliable installations to improve productivity and reduce fatigue. The propylene version is suitable for use in processing and packaging areas where aggressive acids and alkaline chemicals are used for cleaning. The nylon version is the solution for general maintenance and repairs around food. The cable ties are available in different sizes and packaging sizes.
