SHU switch 3x1p,E 50A,230/400V 5SP3850-2 tripping characteristic E, number of poles 3, rated current 50A, rated voltage 400V, rated insulation voltage Ui 690V, rated breaking capacity 25kA, frequency 50Hz, overvoltage category 4, degree of pollution 3, rated impulse withstand voltage 6kV, mounting type busbar, degree of protection (IP) IP40, main line circuit breaker (SHU), 3x 1-pole, E 50A, 230/400V Mounting on 40mm busbars The line circuit breaker is the automatic circuit breaker for short-circuit protection. The line circuit breakers from Siemens as an important part of the SENTRON protective components for the electrical installation offer effective personal and System protection through safe shutdown in the event of an overload or short circuit. Convenient assembly and connection technology, standard additional components and a consistent design - these are the hallmarks of the device family. Whether for infrastructure or for industrial requirements, Siemens offers miniature circuit breakers for all applications and every area of use. The Siemens miniature circuit breakers are characterized above all by: 1. Effective personal investment and system protection against overload and short circuits. 2. Reliable safety during installation thanks to the grip and touch protection included as standard. 3. Clearly visible switch position indicator. 4. Optimum technology for your safety - only from Siemens. For the safe, efficient electrical infrastructure in buildings and industry, Siemens offers an integrated portfolio of protective switching, measuring and monitoring devices, distribution systems, switches and socket outlets.
