Shrink tubing TFE4-5/8-1220PTFE-CL type heat shrink, thin-walled design, shrink ratio 4:1, inner diameter before shrinking 15.87mm, inner diameter after shrinking 4.52mm, nominal diameter in inches 5/8 inches, wall thickness after shrinking 0.38mm, Length 1.22m, operating temperature -70 ... 260°C, color transparent, the most outstanding feature of this heat shrink tubing is its very high temperature resistance. In addition, the transparent, abrasion-resistant material is resistant to aggressive chemicals. The very thin-walled tubing is available in two shrink ratios (2:1, 4:1). Areas of application are wherever very high demands are placed on chemical and temperature resistance, e.g. B. Heat sensors in aggressive media or pH meters. Coverings ensure low-friction movements, e.g. with rollers.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).
** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.
*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
