NH cutting knife size 00, handle insulator. 3NG1002 Type of accessories other, NH cutting knife size. 00 grip tab insulates UL Class CC and Class J fuse systems. The 3NW fuse system from Siemens as an important part of the SENTRON protective components for electrical installations offers effective device and system protection to people through safe shutdown in the event of overload and short circuit. Class CC fuses are used for branch circuit protection applications. Class J fuse links are used for branch circuit protection and in the feeder circuit. The Siemens NW fuses are characterized above all by: 1. Easier export thanks to UL and CSA approval for typical applications in the North American market. 2. Modern design with touch protection ensures safe installation. 3. Possible fuse replacement of the fuse holder when the voltage is off. Siemens offers a comprehensive portfolio of protection, switching, measuring and monitoring devices, installation distributors as well as switches and sockets for the safe, efficient electrical infrastructure in buildings and industry.
