4-5 days* (USA)

Network field circuit breaker UP NFA U2 rated voltage 230V, rated current 16A, rated frequency 50 ... 60Hz, max. incandescent lamp load 600W, max. fluorescent lamp load 140VA, max. fluorescent lamp load (parallel compensated) 250VA, switch-on threshold power 12.5 ... 500VA, switch-on threshold current 5 ... 200mA, monitoring voltage DC, type of installation other, installation depth 18.5mm, the network field circuit breaker NFA U2 monitors the circuit and switches off the mains voltage as soon as the last consumer is switched off. Thus, the electric fields are also switched off. The monitoring voltage is only 2.5V DC. The use of such devices is particularly recommended for bedroom circuits (quiet zones). With the very compact NFA U2, the installation in a junction box enables a circuit to be divided into a monitored and a permanently supplied part, which makes installation much easier, especially in older systems, TVE/TVA - 0.1/10s, monitoring voltage 2.5V DC, operating voltage 230V AC, 1 closer 10A, dimensions: 18x55mm

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
