Frequency monitoring relay AC50/60HZ230V AA9837.11 40-120HZ Design of the electrical connection Screw connection, rated control supply voltage U_s at AC 50 Hz 230 ... 230V, rated control supply voltage U_s at AC 60 Hz 230 ... 230V, voltage type for actuation AC, rated voltage 8 ... 500V, response value for frequency 40 ... 120Hz, number of contacts as normally closed 0, number of contacts as normally open 0, number of contacts as changeover 1, width 45mm, height 77mm, depth 127mm, The frequency relay works according to the principle of frequency comparison, whereby the measuring frequency is compared with a frequency generated in the device that can be changed using the adjustment knob. When a switching bridge is connected between terminals X1 - X2, the output relay drops out if the measuring frequency is greater than the set frequency. The relay picks up again when the measuring frequency is smaller than the set frequency x hysteresis factor (function diagram). When a switching bridge is connected between terminals X2 - X3, the relay is activated when the measuring frequency is greater than the set frequency. The relay drops out again when the measuring frequency is smaller than the set frequency x hysteresis factor. The presence of the measuring voltage is indicated by a light-emitting diode, whereby low frequencies can be recognized by the flashing rhythm. Another LED shows the switching status of the output relay

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
